1. Overview

Rust Consulting has standardized a format for the electronic submission of claims in securities settlements by institutions filing on behalf of multiple clients or proprietary accounts. Electronic Claim Filing is intended for institutions, brokers and nominees only. This is not used for individual claimants. All Electronic Submissions must follow the Filing Requirements outlined in sections 3 and 4 of these instructions.

2. Security and Integrity

Security of systems and applications and confidentiality of data is of utmost importance to Rust. Rust maintains a unified compliance posture including:

- A system Certification & Accreditation under the Federal Information Security Management Act (FISMA and NIST);
- An annual SSAE 16 (formerly SAS 70) Type II audit of our data and system controls and protocols;
- Compliance with and adherence to Safe Harbor Principles; and
- Compliance with Gramm-Leach-Bliley Act (GLBA) and the Health Insurance Portability and Accountability Act (HIPAA).

3. Filing Requirements

In addition to the instructions contained in the notice and claim form, you must comply with ALL of the following or YOUR FILE WILL BE REJECTED.

1. Proof of Claim and Release Form

Each filing entity must include one (1) completed Proof of Claim and Release form per submission. This Proof of Claim and Release form will serve as the master for all of the accounts included in your filing. The Proof of Claim and Release form should include the name, street address (a Post Office box is NOT acceptable), telephone number, and email address of the filing entity and be signed by an authorized signatory and must state the capacity of the person signing.

2. Authorization Documentation

Each submission must include documentation showing authority to file on behalf of the clients included in the submission.

3. Data Verification Document

Each submission must include a notarized affidavit or a signed letter on company letterhead stating the source of the data (e.g., proprietary database) and attesting to the truth and accuracy of the transactions and holdings that were submitted in the file. Please note, additional documentation may be requested to verify the information included in your data file. Failure to provide the requested documentation may result in the rejection of your submission in this settlement and/or the option of filing your claims electronically in future settlements administered by Rust Consulting.

4. Data

Data must be submitted as an Excel spreadsheet using the Electronic Filing Template or a fixed-length text file and include all of the fields, column headings and should also be in the same order and format as listed in Appendix B. Additional information regarding the data requirements is listed in Appendix C.

5. Control Form

Each submission must include a completed control form attached as Appendix A. Please complete all fields included in the Control Chart including the Filing Entity Name, Filing Entity Type, Contact Information, Payment Instructions, Type of File

(i.e. New File, Replacement File and Deficiency Response) File, Total Number of Beneficial Owners and Total Number of Transactions. Your file will be rejected if you fail to include a completed Control Chart with your submission.

6. Submission Method

Electronic Claims must be submitted via one of the methods listed below. If your claim is not filed as described below it may not be received and processed properly. DO NOT SUBMIT YOUR CLAIM TO INDIVIDUAL EMPLOYEES OF RUST CONSULTING.

- Rust Consulting eData Vault: <https://edatavault.rustconsulting.com>
- By US Mail to: IndyMac MBS Settlement, Attn: Electronic Claim Dept., c/o Rust Consulting, Inc., P.O. Box 2844, Faribault, MN 55021 – 8598
- By Courier to: IndyMac MBS Settlement, Attn: Electronic Claim Dept., c/o Rust Consulting, Inc, 201 S Lyndale Ave, Faribault, MN 55021

4. Additional Requirements

BALANCING: All claims must balance. For each security provided, the security purchased or otherwise acquired during the Class Period must equal the security sold or otherwise disposed of during the Class Period plus the holdings at the end of the Class Period. Claims that do not balance will be deficient and may be rejected in their entirety.

- **TRANSFERS:**

NOTE: Rust Consulting will NOT manually adjust/correct claims once they are loaded to correct/combine accounts containing transfers between accounts for the same beneficial owner.

- 1) Securities received in or delivered out of an account should be included in your submission for balancing purposes only (**Lending certificates, journal entries and/or bookkeeping transactions should not be included in your file**).
- 2) Securities received in or delivered out are not eligible to be included in the loss calculation of your claim unless you have additional information pertaining to the original purchase(s) or disposition(s) of those securities.
- 3) For securities received, the calculation of these securities will be computed only when original purchase information has been provided, and will be calculated using the trade date and price of the original purchase(s), and not the date or value of the security at the time of transfer.
- 4) For securities that were delivered out, purchases or acquisitions that are matched on a First-In, First-Out (FIFO) basis with a transfer out of the account will not be included in the loss calculation, as the match does not provide a basis for determining the amount received for or the value of the securities transferred out, and thus, a loss amount for the transaction under the Plan of Allocation cannot be calculated.

For all accounts that contain transfer transactions you MUST follow these filing instructions, failure to do so will result in an ineligible claim and/or entire electronic filing.

For accounts where certificates were transferred between different custodians (your file only contains one of the accounts involved in the transfer):

- CERTIFICATES RECEIVED from a prior account – must be reported as either a part of the opening position OR reported as the actual original purchase of those certificates, OR as a “R” (receipt) transaction.
- CERTIFICATES DELIVERED to a subsequent account – must be reported as either a part of the closing position/unsold balance AND/OR a “S” (sale) transaction(s).
- If there is no original purchase/acquisition or subsequent sale information you must report the receipt and/or delivery of certificates for balancing purposes.

For accounts where certificates were transferred between accounts in which your filing contains all accounts involved in the transfer:

- The account that owned the certificates most recently should be the account you will report the purchase/acquisition of those certificates.
- For accounts that delivered out or received in (transferred) with the same beneficial owner you must combine these accounts in your filing, including all eligible positions, along with all purchases, acquisitions, and sales using the most recent account name and number.
- **ELECTRONIC CLAIM TRANSACTION LISTING REPORT:** Upon the completion of processing your file, Rust will provide you with an Electronic Claim Transaction Listing report (“DSK10 report”) which will list all of your claims along with any deficiencies or ineligibilities that have been identified. If you do not receive this report or if the report that you receive is missing information, you must contact Rust immediately. No electronic files will be considered to have been properly submitted unless the Claims Administrator issues a DSK10 report listing all transactions contained in the electronic file.
- **CANCELLED TRADES:** Do NOT include cancelled trades or any corresponding trade utilized to adjust the account for the cancelled trade. In other words, any cancelled trade, along with the transaction executed to cancel that trade, should not be reported in your submission.
- **NEGATIVE VALUES:** All numbers should be reported using Absolute Values. For instance, do not report sales using negative quantities; for purchases, do not report the net amount paid as a negative value.
 - **DUPLICATIVE CLAIMS:** Electronic claims are compared to paper claims received to eliminate duplicative filings. Any paper claims filed by, or on behalf of, a beneficial owner will take precedence over an electronic claim filed by a custodian, broker, nominee, or third party filer. Additionally, by signing the Proof of Claim and Release form, you are certifying that you have not submitted any additional claims covering the same purchases, acquisitions, sales or holdings and know of no other person having done so on behalf of the beneficial owner.
 - **ADDITIONAL DOCUMENTATION:** Rust Consulting may request that you provide external documentation such as trade confirmations/monthly statements to verify your claim information, even if you submitted a letter or affidavit attesting to the truth and accuracy of the information provided. If you do not provide the documentation to support your trades or holdings as requested by the date specified, your claim will be rejected in its entirety. Documentation provided from the same system from which your trade data originated is NOT acceptable documentation.
 - Once notification of a rejected submission has been made, whether resulting from non-compliance with the filing requirements or for any other reason, no further communication will be sent regarding the rejection. It is the responsibility of the filing entity to timely provide a replacement file.
 - Rust Consulting reserves the right to reject your electronic filing and require that you submit your claim in hardcopy with complete documentation.
